ASUS ROG Spatha - Mouse - right-handed - laser - 12 buttons - wireless, wired - 2.4 GHz - USB wireless receiver - titanium black - for 15; ROG Strix G15; ROG Zephyrus G14; TUF Gaming F15; F17; FX505; TUF505; ZenBook 13; 14

ROG Spatha has a total of 12 programmable buttons, including six thumb buttons, to give you intuitive command and control. It fits perfectly in your hand, and has been ergonomically-designed to give you tactile feedback and response. Gaming mouse buttons take a lot of punishment, and that's why the buttons on ROG Spatha feature durable switches with a 20-million-click lifespan. The switchable socket design allows for easy customization too. ROG Spatha comes with fully-programmable thumb buttons with Alps switches to give you tactile feedback. The six buttons are arranged to resemble the iconic ROG eye and are designed to provide intuitive control and feel. ROG Spatha utilizes a high-speed wireless connection for high data throughput and low latency to ensure all your movements are tracked accurately. And once the battery runs out, you can continue using it while charging, all without losing response and performance. ROG Spatha has an aggressive angular design that stands out. You can even customize the LED light effects on the scroll wheel, side buttons and ROG logo from a wide range of colors. Customize user profiles, lighting effects, and program macros via the intuitive ROG Armory dashboard.
