Avaya 9611G IP Deskphone - VoIP phone - H.323, SIP - multiline

This line of powerful deskphones offers brilliant audio quality, low power requirements, customizability and performance. The phones feature context-sensitive graphical interfaces and large color touchscreens, which deliver increased call control while simplifying the traditional telephone experience. Avaya 9600 series IP deskphones help boost productivity while increasing worker satisfaction - turning a business phone system into a competitive advantage. The 9600 series works with the Avaya Aura and IP office platforms, and can be used from headquarters, remote locations, or home offices. Avaya 9611G IP deskphone provides everyday users with enriched communications capabilities. The 9611G IP deskphone is an 8-line intermediate telephone ideally suited for Everyday users who consider their phone to be one of many useful communication tools and who rely on common functions like directory and speed dial to enhance productivity and communications. Enabling digital customers to transition easily to the best of IP phone technology, the 9611G delivers intelligent communications with a traditional look and feel, graphical color display, high definition audio quality with full duplex speaker, and a wideband handset and headset. Part of the 9600 series IP deskphones, the 9611G leverages your enterprise IP network to deliver sophisticated communications from headquarters or remote locations. Integrated with Avaya Aura, the 9611G's evolutionary approach optimizes communications through a flexible architecture that leverages existing investments and accommodates changing business needs.
