Cisco IP Phone 6841 - VoIP phone - SIP, SRTP - 4 lines - charcoal

The Cisco IP phone 6800 series is a cost-effective, high-fidelity voice communications portfolio, designed to improve your organization's people-centric communications, while reducing your operating costs in third-party hosted call control deployments. The 6800 series combines an attractive ergonomic design with "always-on" reliability and secure encrypted communications. The phones deliver advanced IP telephony features and wide-band audio capabilities with an easy-to-use, full-featured voice communications experience on third-party hosted call control.

Specifikation
