Cisco IP Phone 6851 - VoIP phone - SIP, SRTP - 4 lines - charcoal

The 6800 series combines an attractive ergonomic design with "always-on" reliability and secure encrypted communications. The phones deliver advanced IP telephony features and wideband audio capabilities with an easy-to-use, full-featured voice communications experience on third-party hosted call control. The line keys on each model are fully programmable. You can set up keys to support either lines, such as directory numbers, or call features, such as speed dialing. You can also boost productivity by handling multiple calls for each directory number, using the multiple-calls-per-line appearance feature. Tricolor LEDs on the line keys support this feature and make the phone simpler to use. Fixed function keys on all models give you one-touch access to service, messaging, directory, hold/resume, transfer, and conference features. A full-duplex speakerphone lets you set up clear multiparty conferences for flexible, productive collaboration. The Cisco IP Phone 6800 series maintains the same usability standards and context-sensitive user experience as the Cisco IP Phone 7800 series. The 6851 IP phone features a high-resolution 3.5-inch (396 x 162-pixel) grayscale display with white backlighting for easy reading. Localized language support, including right-to-left onscreen text, meets the needs of global users. The IP Phone 6800 series is ideal for businesses that want to update their phone system from a traditional analog or digital-based system to an IP communications system with third-party hosted call control services.

Specifikation

General

Product Type	VoIP phone
Body Colour	Charcoal
Body Material	ABS polycarbonate

Phone Features

Call Services	Voice Mail, Caller ID, Call Waiting, Call Forwarding, Call Transfer, Call Hold, Message Waiting Capability
Dialer Location	Base
Conference Call Capability	Yes
Speakerphone	Yes
Indicators	Voice message waiting indicator, speakerphone indicator, headset
Additional Functions	Call timer

IP Telephony	
Main Features	Multiple VoIP protocol support, integrated Ethernet switch
VoIP	Yes
VoIP Protocols	SIP, SRTP
Voice Codecs	G.722, G.729ab, G.711u, G.711a, iLBC, iSAC, Opus
Lines Supported	4 lines
Quality of Service	IEEE 802.1Q (VLAN), IEEE 802.1p
IP Address Assignment	DHCP, static
Security	IEEE 802.1X
Power Over Ethernet (PoE) Support	Yes
Network Protocols	SRTP
Network Ports Qty	2 x Ethernet 10Base-T/100Base-TX/1000Base-T
Network Features	Class 2 PoE
Display	
Type	LCD display - monochrome
Display Location	Base
Diagonal Size	3.5"
Display Resolution	396 x 162 pixels
Backlit	Yes
Miscellaneous	
Connections	Headset jack / RJ-9
Placing / Mounting	Wall-mountable, table-top
Dimensions & Weight (Base)	
Width	26.5 cm
Depth	3.3 cm
Height	20.7 cm
Weight	615 g
