CS-TOUCH10=

Cisco Touch 10 Control Unit - Touchscreen w/ LCD display - capacitive - for Spark Room 55, Room 70; TelePresence MX700, MX800, SX10; TelePresence System SX20, SX80

The Cisco Touch 10 control unit is an intuitive device designed to give you a delightful experience when interacting with Cisco video conferencing systems - with just a touch or swipe of your finger. This touch-based unit is optimized for an effortless user experience - from launching and ending a video conference, to sharing content, to viewing contact lists and directories, and even accessing voicemail messages. Cisco Touch 10 control unit enhances the ease of connection and communication by providing instant access to meeting, contacts, directories, and content. Touch 10 combines beautiful design and effortless user interaction with a consistent experience throughout the Cisco room-based video conferencing device portfolio.
