

Produktinformation

Broadcom 5719 - Network adapter - Gigabit Ethernet x 4 - for PowerEdge T130; PowerEdge R230, R330, R430, R440, R540, R640, R740, R830, R940, T440, T640

Designed to help you maximize the performance of Dell PowerEdge servers, the Broadcom 5719 Quad Port GbE Network Interface Card brings next-generation quad GbE connectivity to your rack or tower environment. Ideal for enterprise or PCIe slot-constrained environments, the Broadcom 5719 Quad-Port GbE NIC features an established architecture and software stack that seamlessly integrates with the Dell iDRAC7 and Dell Lifecycle Controller management framework to help deliver improved power efficiency and full line-rate performance across all ports. Get the throughput you need with a four-lane PCIe operable in x4, x8 and x16 slots.

Information

<i>Tillverkare</i>	Dell
<i>Artnr</i>	540-BBGX

Specifikation

General

Device Type	Network adapter
Form Factor	Plug-in card

Networking

Ports	Gigabit Ethernet x 4
Connectivity Technology	Wired
Data Link Protocol	Ethernet, Fast Ethernet, Gigabit Ethernet
Data Transfer Rate	1 Gbps

Compatibility Information

Designed For	Dell PowerEdge R220, R320, R420, R420xr, R520, R620, R720, R720xd, R820, R920, T130, T320, T330, T420, T430, T620, T630, VRTX, VRTX M520, VRTX M620 Dell EMC PowerEdge R230, R330, R430, R440, R530, R540, R630, R640, R730, R730xd, R740, R740xd, R830, R930, R940, T440, T640
