Elo Backpack 3.0 - mini PC - Snapdragon APQ8053 1.8 GHz - 2 GB - SSD 16 GB

The Elo Backpack 3.0 for Android delivers a reliable, commercial-grade compute engine with the flexibility and functionality of Google Play Services. Based on a unified architecture, Elo's Android-powered devices make it easy to create a seamless experience for your customers - from their mobile devices to your interactive in-store experiences. The 3.0 compute engine transforms touchscreen monitors and signage displays into commercial-grade systems capable of running audio and video content, interactive HTML webpages and Android-based apps. The Backpack also supports industry-leading peripherals for scanning, payment, printing and biometric input. Users can easily scale Elo's commercial Android platform to many sizes and form factors and take advantage of the latest Google Mobile Services features. Pair the compute engine with EloView to simplify the delivery of content, enable remote management capabilities and create a consistent deployment that is cost effective and optimized for commercial use.
