G-Technology G-DRIVE Mobile Pro GDMOPTB3WB10001DBB - Hard drive - 1 TB - external (portable) - Thunderbolt 3 - black

With storage running at 2800MB/s, the G-DRIVE mobile Pro SSD lets you edit multi-stream 8K footage at full frame rate, quickly render VR projects and experience them at full resolution, and transfer as much as a terabyte of media in seven minutes or less wherever you are. A durable, shock-resistant design uses hand-picked components to endure your travels, while a single Thunderbolt 3 port lets you instantly edit footage on the go with incredible speed without the need for wall power. An aluminum core helps prevent overheating to maintain a consistent high level of performance, you get durable, blazing fast storage ready to stick with you for years to come.

Specifikation

General

Device Type	Hard drive - external (portable)
Capacity	1 TB
Interface	Thunderbolt 3
Width	80 mm
Depth	112 mm
Height	17 mm
Weight	1.04 kg

Performance

Max Data Transfer Rate	2800 MB/s
-------------------------------	-----------

Expansion & Connectivity

Interfaces	1 x Thunderbolt 3 - 24 pin USB-C
-------------------	----------------------------------

Power

Power Source	Thunderbolt bus
Power Device	No power supply

Software & System Requirements

OS Required Windows 10, Apple macOS 10.13 or later

Miscellaneous

Cables Included 1 x Thunderbolt 3 / USB-C cable - external - 50 cm

Enclosure Colour Black

Dimensions & Weight (Shipping)

Shipping Width 12 cm

Shipping Depth 4.8 cm

Shipping Height 18.3 cm

Manufacturer Warranty

Service & Support Limited warranty - 5 years
