HPE 3PAR 7200 Replication Software Suite Drive - Licence - 1 drive - electronic

The HP 3PAR Replication Software Suite protects your applications, data, and your business from the unpredictable by delivering simple, fast, and economical application data protection, transparent failover, and disaster recovery solutions. This software suite bundles HP 3PAR Virtual Copy, HP 3PAR Remote Copy, and HP 3PAR Peer Persistence to help you protect, share, and freely move data across data centers without impacting your business applications. Uniquely flexible Remote Copy technology and efficient copy-on-write snapshot technology (Virtual Copy) allow you to affordably optimize both recovery point and recovery time objectives while Peer Persistence enables automated transparent failover across data centers. The intelligence and automation of the software suite's offerings reduce complexity, human resource requirements, and potential errors at critical moments.
