Absolute Data & Device Security Professional - Subscription licence (3 years) - 1 unit - volume - 1-2499 licences - Win

Absolute Data & Device Security (DDS), formerly Absolute Computrace, is an adaptive endpoint security solution. It provides you with a persistent connection to all of your endpoints and the data they contain. With Absolute DDS, it's all about the connection. By maintaining a two-way connection with each device, you have the insight you need to assess risk and apply remote security measures so you can protect each endpoint and the sensitive data it contains.
