StarTech.com 65x60x45mm Socket 7/370 CPU Cooler Fan w/ Heatsink & TX3 connector (FAN370PRO) - Processor cooler - (for: Socket 370, Socket 7) - 60 mm

Add a CPU heatsink and fan cooler to a Socket 7/370 system. Measuring 65x60x45mm, this Socket 7/370 CPU Cooler/Fan is a combination heatsink and fan designed to cool high performance CPUs. The Socket 7/370 CPU Cooler offers an extra-large heatsink combined with a quiet running 6x2 cm brushless ball bearing DC motor. The fan features a high-efficiency blade design capable of moving 21.46 CFM, providing enough cooling capacity for Pentium III and Celeron CPUs up to 1.4 GHz. The Socket 7/370 CPU Cooler is powered through a TX3 (3-pin) connection to the computer power supply, and is a suitable cooling solution for Intel Pentium III and Celeron CPUs up to 1.4 GHz and AMD K6 processors at any speed. Please note: to power the Socket 7/370 CPU cooler using an LP4 (4-pin) connection to the power supply, please see the TX3 to 2x LP4 Power Y Splitter Cable (CPUFANADAPT).

Specifikation

General

Product Type	Processor cooler
--------------	------------------

Heatsink & Fan

Compatible With	Socket 370, Socket 7
Heatsink Dimensions	66 mm x 60 mm x 25 mm
Thermal Resistance	0.64 °C/W
Fan Diameter	60 mm
Fan Height	20 mm
Rotation Speed	4000 rpm
Air Flow	20.2 cfm
Noise Level	31 dBA
Power Connector	3-pin plug
Features	Ball bearing

Manufacturer Warranty

Service & Support

Limited warranty - 1 year
