## IDEAL GLASS - Screen protector for mobile phone - Crystal Clear - for Apple iPhone 7

iDeal glass offers optimal protection for the phone. The glass is shatterproof, making it safe to use. The protector breaks into small, blunt pieces. At a thickness of only 0,33 mm, it provides optimal protection while retaining a very slim, almost invisible profile. The glass is round edged, smooth to touch and improves durability. 8-9H surface hardness provide premium protection while an oleophobic coating offers fingerprint resistance, all while retaining the original touchscreen experience.

## Specifikation
